You're Invited

Hello Law Enforcement and Public Safety Leaders!

We are excited to invite you to an exclusive inspirational leadership event designed to reinvigorate you and your teams.

Held on **April 3-4** in beautiful Leavenworth, Washington (an easy 2 1/2 hours from Seattle, WA), the third bi-annual "Legacy of Leadership Conference" will attract law enforcement leaders from throughout the Western States. Building on our exceptional reputation for providing top-notch training to law enforcement personnel, we are creating an event that will be THE training event of the year. This training is designed to inspire you and your team to take your leadership to the next level with your departments - giving you the practical tools to accomplish your goals and the personal skills to continually balance the demands of your career. We are offering key leadership topics as well as specific training on issues related to health and wellness, organizational development and building a better training system. The training will be provided by our well-known team of experts with over 165 years of law enforcement and public safety experience. We will also be rolling out new programs at the conference that you have not heard before as well as introducing new instructors you can arrange to bring to your departments after the conference.

In addition, we have two sessions available for facilitated consulting with your group to help you with your planning, teambuilding and communication.

We have also built in a number of social occasions for networking with other law enforcement experts and time for you and your team to enjoy the local area and all it has to offer.

Details of the conference are listed on the following pages including training descriptions, agenda and lodging information as well as details on the available facilitated sessions. Thanks to the efforts of our team and the contributions of our sponsors, we are offering the conference (with 16 hours of training) for only \$275 per person. If you bring 10 from your agency, we are extending a group rate of \$2500.00 (or \$250 each). You can register online at www.PLI.US.COM or contact **April Lee at (541) 490-5300 or alee@pli.us.com**.

We look forward to having you join us to get inspired, to focus on excellence, and to gain new tools, techniques and expertise from some of the best trainers in the business! We look forward to hearing from you!

Thanks,

April M. Lee
President and Owner
Performance Leadership Institute, Inc.

SIGN UP FOR A MINI-CONSULTING SESSION!

Sessions available Tuesday afternoon and Wednesday morning - 4 hours each

Performance Leadership Institute, Inc. has over 165 years combined law enforcement experience on its team. Put this experience, expertise and practical knowledge to work for your agency by signing up for one of our "Mini-Retreats" where your team can receive a facilitated consulting session with three of our law enforcement experts. Captain Randy Barnes, Sheriff Tim Mueller and April M. Lee will work with your team on goal setting, project planning, communications improvements, strategic planning initiatives or other topic of your choice in a dedicated four-hour session. Your team can receive the benefit of the conference training and take away the benefits of a planning and teambuilding experience that sets up on the right path for moving forward. Each four-hour facilitated session is being made available at the conference for a discounted rate of **only \$1,950 per session** for up to 10 members of your organization - that is a \$5,000 value for less than half the cost if you take advantage of it while at the conference!

Only two sessions are available so call April Lee at (541) 490-5300 to book your customized session today!

TRAINING DESCRIPTIONS

TRAINING SESSIONS

***"Character Driven Leadership"* instructed by Chief (Ret.) Jon D. Zeliff**

True leadership of an organization or a team first and foremost requires a high level of character and integrity. This program will call for your personnel at every level to think more critically about the ethical choices they make and why they make them. This program will focus on how to inspire your agency, your team and yourself to better address the character related decisions that impact your leadership and your agency. This opening program will cover how to promote a culture of integrity in your agency and team; and give real-world examples and candid discussions about tough situations and practical tools to help better build public trust.

***"Emotional Intelligence and Its Impact On Leading Your Team"* instructed by Sgt. Wayne DuBois**

Emotional intelligence is being much more widely used as a leadership principle and technique. Understanding what makes your team members tick and how to harness their potential is key to maximizing performance. Sgt. DuBois helps you understand how emotional intelligence can be used in a public safety environment to ensure maximum results from your team.

***"Case Study: "Creating A High Performing Organization & Training Program"* - by Capt. Brad Daniels, Nampa, ID PD**

Over the last three years, Nampa Police Department has transformed itself from a level of good to a level of excellent, effectively revamping their entire department. Through the use of organizational assessments, strategic planning and the creation and alignment of their agency-wide training program to align with their mission and strategic plan, this agency has created a high performing team that is maximally responsive to their citizens needs. Captain Daniels will share the tools and techniques they used and tips and tricks on managing through major organizational change.

***"Officer Resiliency—a First Person Account"* instructed by Sgt. Jamie Burns, Nampa, Idaho Police Department**

Sgt. Jamie Burns will close out the conference with an inspirational program designed to help attendees build better tools and perspective on maintaining a resilient attitude and practices through both a long and tough career in public safety and through critical incidents. Using a first person account of how he came through a critical incident of his own, Sgt. Burns will discuss officer resiliency tools, and how to build an environment and culture in your agency that is supportive of both critical incident impacts as well as the impacts of the stress of the day to day job of public safety.
